These plans do not indicate the location of landscape walls, retaining walls or fences. This information is to be confirmed by purchaser's own onsite inspection.
The pattern and extent is indicative only.
The houses available in the Olympic Village may also vary from those on display, in the following areas: Room sizes, minor planning changes, and window size and location.
If this property is located within stage 2 or 3 of the Olympic Village for the Sydney 2000 Olympics it was specially fitted out to accommodate the athletes and officials. After the Olympics the property will be re-fitted with a new kitchen, new carpets and a final coat of paint internally throughout, together with completion of hard and soft external landscaping. At that time, there may be minor floor plan changes and relocation of fixtures.

Note: room sizes to some bedrooms are taken from back of robes.
